1 Introduction

The purpose of the National Committee on Foreign Medical Education and Accreditation (NCFMEA) is to review the standards used by foreign countries to accredit medical schools and determine whether those standards are comparable to standards used to accredit medical schools in the United States. The NCFMEA does not review or accredit individual foreign medical schools. The NCFMEA only reviews the standards that a foreign country uses to accredit its medical schools. The request by a foreign country for review by the NCFMEA is voluntary.

When a country contacts the U.S. Department of Education (Department) and asks to have its accreditation standards reviewed, the Department requests that the country answer questions regarding its accreditation standards and processes and also provide supporting documents (e.g., copies of statute and regulations, standards, etc.). The questions are designed to solicit information pertinent to the NCFMEA Guidelines for the committee's evaluation of a foreign country's standards

Additional information concerning NCFMEA applications is available in the [NCFMEA Guidelines](#).

2 Access and Login

Prior to accessing the system, in preparation for using the online submission process, you should:
